

## About Us

The company VSI is an international private company specializing in value added automated Web Hosting services. VSI is accessible under 911hosting.net, savetimehosting.net and many other domains. The company operates it's network in North America, Central America, Switzerland and soon Asia. It's management is assured by professionals with over 25 years of experience in the field. As an IPP (internet presence provider) VSI does not offer local access internet services. Keeping domains hosted and managed separately from access companies gives clients more stability and flexibility to adapt in an ever changing world . In addition to web hosting and hostmaster services, VSI provides consulting services.
